EDUCATION

Master of Science in Information Technology

MARKS% - 60   **2021 - 2023**

Arignar Anna Arts and Science College, Cheyyar

Bachelor of Science in Computer Science

MARKS% - 78   **2018 - 2021**

Sri Sankara Arts and Science College, Kanchipuram

CERTIFICATION

- Honor Diploma in Computer Application
- Cloud Computing
- Certificate of participation in HTML & MySQL

PROFILE

Fresher Software Developer with a strong foundation in Python, SQL, HTML, and CSS. Eager to apply skills to real-world projects, focusing on writing clean and efficient code. A quick learner with a passion for problem-solving and innovation. Demonstrates strong teamwork abilities and a commitment to continuous improvement, motivated to embrace new challenges in software development.

SKILLS

- **Frontend :** HTML, CSS
- **Programming Languages :** Python
- **Databases :** MySQL, PostgreSQL
- **Operating Systems :** Windows, Linux Mint
- **Tools & Technologies :** GITHUB, Basics of Power BI, Basics of Cloud Computing,Fundamentals of AI.

RECENT ACTIVITY

- **Full Stack Developer Course :** Pursuing a course at Payilagam Software Training Institute to enhance my Full Stack Development skills.
- **Practice :** Actively practicing Python on CodeChef and HackerRank, and W3Schools for SQL Queries.
- **Blog Writing :** Sharing insights and experiences through blog posts on my learning journey.
- **Stack Overflow Member :** Engaging in forums, including Python and open-source communities, to explore new technologies and contribute to discussions.

PROJECT

Cloth store management using Python :

Developed a Python-based system featuring real-time inventory tracking with SQL and customer management for purchase history. Enabled sales processing with invoice generation and transaction records. Designed an intuitive user interface for ease of use and implemented security measures for sensitive data. Created comprehensive documentation, including user guides.
